11:15-3:00 p.m.		Office Hours Determined by Individual Teacher (Students should continue to work on posted lessons or access teacher office hours)			

***Weekly Class Meetings:** This is defined as a “whole group check in” meeting using Google Meets once per week per course. This is an optional opportunity for students to meet with their teacher and the class to ask/answer questions, reteach/clarify challenges, check-in with students, etc. This is a synchronized class meeting.

***Office Hours:** This is defined as a time that students and parents have “digital” access to the teacher for a total of **2 hours per day**. This is the designated time teachers can answer emails, respond to Schoology messages, provide individual student feedback on assignments, and plan for reteaching, clarification, etc. Every effort should be made to respond to students and parents during this time if possible in order to support student/parent questions regarding content.

NOTE: Teacher Office Hours will occur throughout the day on Monday, Thursday, and Friday. Please access the link to Office Hours on our website or check your teacher's Schoology Page.

***Weekly Lessons:** Students are encouraged to access the Schedule Template to plan their week in order to complete all lessons by Friday Evening.

***Self-Care:** Students are reminded to access the “Self-Care Tip of the Day” provided by our counseling staff. Taking care of your emotional health is as important as your academic studies.
